**TRU-TEST®**

**5000 series**

**Hard work Made easy**

Ten years after releasing their world leading 3000 series weigh scales, Tru-Test® are pleased to introduce the next generation in weighing technology - whilst maintaining Tru-Test®'s prized **speed, accuracy and rugged reliability.**

Tru-Test® have gathered feedback from 700 farmers from around the world.

After three years of development, 6,000 hours of testing in Tru-Test®'s R&D lab, on-farm trials in New Zealand, Australia, Brazil and North America, they are bringing farmers what they said they need...

...enter the 5000 Series.

## Easy to **SEE**

**Farmers need to see weights and animal information when outside.**

- Large 7" display with unique transfective screen technology.
- Works with the sun to create unbeatable clarity and increased battery life.
- Automatically switches between indoor and outdoor operation.

## Easy to **USE**

**Farmers have a million things to do. Figuring out how to work their indicator shouldn't be one of them.**

- Fast, intuitive navigation.
- Clearly laid out screens only showing you the information you need.
- Less screens to get to where you want to go.

## Easy to **SET UP**

**Farmers are on the clock so Tru-Test® have made things simple and quick to do.**

- Save favourite set ups.
- Simple step-by-step set up.

## Hard to **DESTROY**

**Tru-Test® have made the toughest indicator in the world even tougher.**

- Water, shock and dust proof.
- New rubber bumpers - the latest advancements in rugged design.
- Internal shock absorbers.
- Tested for the harsh agricultural environment.

## Easy to **Transfer Data** Still **Fast & Accurate**

**Farmers prefer to be outside - not stuck in the office. So there are more options to transfer data directly from the farm yard.**

- EziLink Windows PC app.
- USB Flash drive.
- Android and Apple Data Link mobile apps.

**Speed is of the essence... and so is accuracy.**

- Superdamp III weighing technology - first developed 13 years ago and remains the world leader today.
- Locks on to the accurate weight of a moving animal faster than any other indicator on the market.
