the weigh you want... *today!*

Dear Customer:

This catalog has been prepared especially for the professional in the weighing industry. I think that you will find it informative and helpful.

We pride ourselves on answering the phone on the first ring and shipping your order the same day that you place it. This is due to our huge inventory.

You can depend on our price being the best in the industry. If you have a need for a large quantity we can give you a better price.

Thank you for being our customer. We look forward to many successful years with you.

Best Personal Regards
Rudolph J. Kolaci
President

Compact

HH320
Compact Scale

OHAUS®

HH Hand Held compact scale

Convenient, compact and portable for briefcase, backpack or pocket. Standard model HH120 for basic grams weighing. Professional HH320 has multiple weighing units for g, oz, dwt, ozt. Backlit display and protective cover. Large high contrast LCD display. Low battery indicator, overload and underload indicators, (2) "AAA" batteries, rugged plastic construction. The letter "D" in the part number indicates a User Calibration Feature. 1 year warranty.

Part Number	Capacity	Platform	Weight	SKU	List
HH120D	0-60g x 0.1g	3.25" x 3"	1 lb	4156	\$ 238.00
	60-120g x 0.2g				
HH120	120g x 0.1g	3.25" x 3"	1 lb	2312	284.00
HH320	320 x 0.1g	3.25" x 3"	1 lb	4157	313.00

PS
Compact Scale

OHAUS®

PS Compact scale

Unique pan design, durable ABS housing slides back to engage the load cell and expose the display and buttons for operation. Weighing units for g, oz, ozt, dwt. 0.3" LCD display. Text weight unit prompts with stability and overload indicators. Auto shut off to preserve battery. Cover protects display and keys and prevents load cell damage in transport. Smaller than most pocket scales, allows a comfortable fit in your pocket. Piano style mechanical buttons provide positive dependable operation. Includes calibration software using 100g weight for PS121 and 200g weight for PS251. Calibration weights are not included. Two CR2032 lithium batteries included. 1 year warranty.

Part Number	Capacity	Platform	Weight	SKU	List

LBX Bench/Floor Scale

LBX Component Bench Scale

With intuitive operation, Latitude compact bench scales deliver excellent value for quick, basic weighing, checkweighing, and counting needs. Latitude compact bench scales deliver an excellent value for weighing, checkweighing, percentage weighing, and counting. With easy operation, Latitude is ideal for production, warehouse, or field use, as it is powered by the included AC adapter or internal rechargeable battery. The battery operates for 240 hours, so there are no worries about losing power. For added flexibility and convenience, Latitude can be charged using any USB power source, such as the USB connection in a vehicle or external USB power banks.

Ranger 7000 Compact Bench Scale

Ranger 7000 has a die-cast sealed metal indicator and housing, ensuring it's accurate and long term operation in even the most demanding industrial environments. Stainless steel platform. 4.3" TFT graphic LCD. 8 function, 5 quick, 12 alphanumeric membrane keys. SmartText 2.0 software. Advanced application modes for a variety of complex applications which minimize the need for manual calculations. Applications for: Weighing, Density Determination, Filling, Differential Weighing, Parts Counting, Dynamic Weighing, Formulation, Check Weighing/Counting, Percent Weighing. Weighing units are: kg, g, lb, oz, lb:oz. Weigh hook below. Easily export data through RS232 or USB device port. Additional connectivity options include a second RS232 or Ethernet, and USB host port for bar code scanner or flash drive. Remote base kit, 2 in/4 out digital I/O kit. 100-240 VAC 50/60 Hz Universal Power Supply.

OHAUS®

VX Standard Floor Scale

Portable, rugged. 1/8" and 5/16" thick top plate with raised cross hatch surface for added durability. Low profile floor platform scale package. Ideal solution for freight consolidators, forwarders, processing plants resellers, shipping and receiving departments as well as start up businesses. Quick connects and factory calibration allows the floor scale to operate out of the box with minimal setup. Four IP67 nickel plated alloy steel load cells. Side access NEMA4X, IP65 dust and water protected junction box with 25' long cable. Eye bolt mounting holes to allow easier lifting and positioning of the platform.

T32XW: Stainless steel. 6 digit, 7 segment backlit LCD. Raised tactical keys. Built in bidirectional RS232 with manual, continuous and interval printing. Hardware configuration lockout switch. Software included for parts counting mode with selectable sample sizes. Selectable span calibration points. Averaging level, auto zero tracking. Battery saving off, Geo Code geographical gravity calibration adjustment. Software menu lockouts. 120 VAC, 50-60 Hz. Internal AC power. IP66/NEMA4X.

Ships from Columbus Ohio within 3-5 days. Price is FOB Columbus Ohio.

VN
Standard Floor Scale
w/ T31P Indicator

VN Standard Floor Scale

High quality construction designed to minimize distortion under heavy loads and ensures years of dependable use. Welded steel rib design and thick 0.196"/5mm top plate design provides structural stiffness. Painted tread plate platform top of added slip resistance. Carbon steel eyebolts included for easy installation. Internal structural bracing ensures platform rigidity during everyday use. Four self swiveling ball in cup feet with top access leveling adjustment for easy installation. Available with ramps and mounting feet.

T31P: Large 1" high digit backlit LCD display with a choice of lb or kg. Durable mechanical switch keypad with dedicated Print, Tare and Function keys for quick and easy operation. Selectable power on unit. Counting mode with a minimum Average Piece Weight of 1d. Selectable sample sizes, automatic retention of last sample size used and Average Piece Weight. Counting software can be selected off where Counting Mode is not required. Built in bidirectional RS232C interface for printing or connection to PC. Printing intervals can be set to manual, continuous, on stable weight or an interval between 1 second and 60 minutes. Geographical gravity correction software allows quick adjustment of calibration to local conditions without need for recalibration of the VN Floor Scale. Four wall mounting holes for screw mounting to bench or wall. Wall or table mounting using the included wall mount or bracket for full tilt adjustment of the indicator. Software menu lockouts. 9VDC, 0.5A AC adapter or internal rechargeable sealed lead acid battery, 100 hour typical operation with full charge. Both included.

TCM2 Counting Scale

Your perfect solution for your everyday high accuracy counting. The TCM2 is a single platform counting scale and includes a free connection for a second platform. The second platform can be added at any time and have either a larger or smaller capacity. This is important if you are counting large amounts such as on a pallet which cannot be placed on the main platter. Large 0.7" LCD blue back lighted display. TCM2 has 256 items memory locations for individual piece weight, tare weight and units (lb or kg). Three displays for WEIGHT, PIECE WEIGHT, COUNT. Front panel audible and tactile feedback keys for: ON/OFF, 0-9 KEYPAD, NET/GROSS, SCALE 1-2, UNIT, PCS, PcWt, ST.UTP, RC.UTP, PRINT, TARE, CLEAR, ENTER, EXIT. Annunciators for: Zero, Stable, Tare, Gross, Net, Print, Kg, Lb, Scale, 1-2, CHG, AC. Stainless steel platter 9" x 13" with spill guard. Front bubble level and adjustable rubber feet for easy leveling. Rechargeable battery included. Battery operating time is 60 hours. Time and date, RS232 output. 110 VAC power supply.

CCT Counting Scale

Ideal for use in warehouses, manufacturing processes, and production facilities, the CCT bench counting scale is practical for any counting application. Quickly check the number of pieces in a carton or container, helps reduce waste when filling orders or packaging shipments. Optional USB interface simplifies data communication. Rechargeable battery included for operation almost everywhere. Programmable auto power-off to save energy. Parts counting optimization automatically refines piece weight as parts are added. Built in memory for storing products and settings. Intuitive software is user-friendly and keeps track of the count, automatically optimizing the unit weight for greater accuracy. The programmable backlit display can be customized to be "always on", "always off" or to light only weighing. Platform 8.3" x 11.8".

DBS Baggage Indicator

Stainless steel face plate. Outstanding durability and reliability. 6 digit, 0.56" high red LED display. Damage to the electronics from electrostatic discharge generated by the dry airport environment is prevented through advanced electronics design, backed up with extensive testing and decades of field proven reliability. Baggage weight is easily read from up to 20 ft on the large and bright LED display. When baggage is placed on the scale base, the displayed weight quickly stabilizes on the main and remote display to support fast passenger check in. The entire scale electronics is contained in the panel mount Main Display. No additional electronics control box to install inside the counter. Simply install the Main and Remote Displays into counter cutouts and connect the foolproof, keyed and locking cables through the counter, strain reliefs ensure that once the cables are connected, they stay connected. For use with scale base ordered separately. Load cell in base should be 2 or 3 mv/v output. Keys for: ZERO (ON/OFF), UNITS. Units are lb or kg. Indicators for: lb, kg, NEG, ZERO, MOT. Bi-directional RS-232. Panel mount display cut out size is 6.5" x 3.3" x 1.75" deep. 115 VAC 60Hz wall mount transformer. UL/ULc (230 VAC optional). 1 year parts and labor. NTEP Legal for Trade 05-061

820 Hanging Dial Scale

The 820 and 1030 dial scales are made to strict standards and designed to pass individual state's Weights and Measure inspections. They are sold as approximating scales only.

The 820 scale is modern both in construction and appearance. Designed to withstand hard usage and will continue to perform with accuracy. This scale has an 8" dial and has 3 different scoops. Bronze bearings and springs are made of alloys for precision weighing. Heat treated precision ground pinions assure repeatable and accurate weight readings. Single face or double face for customer to see weight reading. Open face or glass cover to protect pointer.

The 1030 scale has a 10" dial. All steel construction makes this scale rugged and accurate. Choice of deep pan and single or double face. Ball bearings make for smooth operation and guarantee long wear and trouble free service.

Dynamometer

DILLON

AP Mechanical Dynamometer

AP Mechanical Dynamometer

Portable 5" or highly visible 10" dials. Constructed of high strength composite (5") or rugged cast aluminum (10") to resist heavy blows. Used for diverse jobs such as stringing utility line, mounting cables for bridges, adjusting tension on guy wires, field testing chain, rope or wire and anything requiring precise force or tension measurement. Offers accurate readings from varying sight lines. Dial is mar and fog resistant. Can cancel preset loads up to 20% of capacity. Remains in position to indicate peak load point after load is removed from instrument. Includes users guide and signed calibration card, Dynamometer, shackles and pins, maximum pointer, zero adjust for tare, molded plastic carrying case on 5" models and calibration certificate traceable to NIST.

Quick-Check Tension Meter

Portable and rugged. Designed for outdoor use. Quick Check can be placed on cable, measure its tension and removed in under 5 seconds. Easy to read LED display with full text prompts. Easy to read SOFTKEY interface. Tension units of measure: pound-force, kilogram force, Newtons. Built in averaging. Built in temperature sensor with patented automatic tension adjustment. Sheaves with bearings eliminate friction. Quick Check can be employed in many industries including tower and stack guy wires, pretensioned cable barriers, bridges, elevators, winch rope, prestressed concrete, fall arrest systems, aircraft cables and utilities. Stores calibration for up to 15 unique wire sizes and types. Uses AA batteries and has long life between changes. Includes carrying case.

ED junior Dynamometer

Aircraft quality aluminum, easy to position, highly mobile instrument with exceptional strength. 7:1 factor of safety at all capacities and 5:1 on 25K. The EDjunior's design is a direct response to industries that have wanted an extremely well built instrument that could be relied upon for simple yet critical measurements of weight and force. The 6 digit dot matrix display features 1" high numerals for greater visibility. Provides peak detection as well as sustained load readings. SOFTKEY interface provides direct access to setup and display functions without the typical confusing menu structure. 200% safe overload. Distinctive angle body design further eliminates unnecessary weight and streamlines the unit to help prevent binding. Display update rate is 2 times per second. Peak hold sampling rate is 2 times per second. Designed to NEMA4X/IP55 for continuous exterior job site applications as well as in plant use. Calibration traceable to NIST. Includes carry case, manual, calibration card and (2) C cell batteries. Typical battery life is 200 hours. NEMA 4x/IP55.

Dynamometer

DILLON

EDxtreme Dynamometer

Constructed of electroless nickel plated aircraft quality alloy steel. Lower capacity models are anodized aircraft quality aluminum. Allows permanent attachment of centering spacers, which eliminates fumbling during high capacity rigging. 5:1 measure of strength and safety is maintained at all capacities. 200% safe overload capacity. Resolution mode is 1 part in 5,000. Wide angle LCD provides improved readability over a wider viewing angle. RS232 or RS485 communication. Display update rate a 2 times per second. Includes certificate of calibration, manual and (2) C cell batteries. Plastic carrying case included for EDx-2.5K to EDx-100K. Higher capacities include rugged plywood storage crate. Instruments with shackles include centering spacers (EDx-50K & up) and shackle storage crate (EDx-50K to EDx-160K). 9" x 4.6" x 1.8" NEMA 3/IP44

TL6000-RF Wireless Tension Link Scale

RF wireless. Aluminum or stainless steel. Cranes, riggers, shipyards, construction sites, surveyors, inspectors and utilities demand cost effective yet technologically advanced solutions for processing, monitoring and controlling overhead loads. +/-0.1% of applied load or +/-1 graduation: whichever is greater, +/- 0.2% or +/- 2 graduations for 25K & higher. Weights are easily viewed with the industry's largest digital 1.2" high LCD readout. The units easy to use membrane switches allow simple, trouble free operation. The TL6000 wireless remote control can communicate with 20 remote tension links simultaneously. The remote can display the weight from a specific tension link or the total weight from all tension links in the system. Can be interfaced with most PLC or notebook computers. Annunciators for low battery, peak hold, set points 1 & 2, lb, kg, tons, metric tons and dekaNewtons. Function keys for ON/OFF, ZERO, PEAK HOLD, MODE. RS232 or RS485 serial output. Efficient micro controller gives up to 800 hours of battery life, wireless remote control models have a reduced operating time. Power is supplied by (2) 9 volt alkaline batteries (not included). NEMA 4X and IP65.

TL6000 Tension Link Scale

For crane overload and line tension measurement. High resolution using a 14 bit A/D converter gives +/-0.1% of applied load. All electronics are shock mounted in a weatherproof billet aluminum housing. Components are protected against moisture, dust and rough usage. Weights are easily checked with highly visible 1.2" high LCD digital readout. The units easy to use membrane switches allow simple, trouble free operation. Features include peak hold, set points for relay control and keypad setup. Function keys for ON/OFF, ZERO, PEAK, TARE, MODE. Readings can be displayed in lb, kg, tons, metric tons, and dekaNewtons. RS232 or RS485 serial output in continuous or on demand. Efficient micro controller gives up to 500 hours of battery life. Power is supplied by (2) 9 volt alkaline batteries (not included). NEMA 4X and IP65.

GX Precision balance

The world's most user friendly balances. Internal calibration mass. Super Hybrid Sensor. Vacuum fluorescent display. Weighing modes: gram, decimal ounce, decimal pound, pound/ounce, carat, pennyweight, troy ounce, grain, momme, percentage, counting, animal weighing. Standard RS232. Includes WinCT software on a CD for loading into your PC. This software will enable the output from the GX to be entered directly into a spread sheet program such as Excel. Splash proof keyboard and display. GLP/GMP/ISO compliance. Display auto power off function. Density calculation mode. Time & Date. Auto self calibration. Standard underhook. Auto power on function. Auto rezero function. Large square weighing pan. Front air bubble leveling. 120 VAC, 50/60 Hz, 7" x 12.5" x 3.4"H.

HI410S
Precision balance

SI2000S
Precision balance

HI & SI Precision balance

Award winning variable capacitance sensing technology. Large bright LED display. Rapid update rate for filling. Bidirectional RS232. Rugged die cast aluminum housing. Chemically resistant keypad. Stainless steel weighing pan. Standard RS232 interface. HI series has keys for CAL, MODE, PRINT, UNITS, TARE/POWER, %. Units are grams, ounces, carats, %, g per second, user defined unit. Fast or slow update rate. Print will transmit data instantaneously, continuously or at selected intervals. SI has keys for MODE, TARE/POWER. Dual range balances display the finest resolution whenever the balance is tared, regardless of how much weight is zeroed out. 120 VAC adapter, 11"L x 7"W x 3"H.

A&D WEIGHING DIVISION

MX MF ML MS Moisture Analyzers

Fast and uniform heating with halogen lamp. Four measurement programs: Standard, Automatic, timer, Manjal. Memory function for test parameters and results. Up to 20 measurements conditions can be stored and recalled in MX-50. 10 can be stored in MF-50. Large, clear, easy to see VFD display. Plexiglass window for checking heating process. Conformity to GLP, GMP, GCP and ISO with date/time. ID, calibration data and check record outputs. Includes (20) sample pans, (2) pan handles, tweezers, spoon, test sample (30g of sodium tartrate dihydrate), CD-ROM (WinCT-Moisture for MX-50, WinCT for MF-50), RS232C cable for MX-50, display cover, dust cover, instruction manual, quick reference card, power cable, (2) fuses. 120 VAC, 50/60 Hz, 400 Watts, 5.4"W x 8.1"D x 4.4"H.

MB120
Moisture Balance

OHAUS®

MB Moisture Determination Balance

Automatic determination of moisture content. GLP compliant format when printed results are required. Fast halogen element provides uniform infrared heating up to 200 deg C. Heat from 50 deg C to 180 deg C in less than 1 minute. Display shows % moisture, % solids, weight, time, temperature and drying time. Program and recall up to 50 drying procedures. Once programmed, simply select and run test. Allows simple test editing to find best result. Auto shut off. Programming options are fast, standard, ramp or step. RS232 bidirectional interface is standard. 2 Year warranty. 120 VAC, 50/60 Hz, 7.5"W x 14"D x 6"H, 3.5" dia pan.

**MA35
Moisture Balance**

MA35 Moisture Balance

Quick and reliable analysis using thermogravimetric method. Fully Automatic infrared moisture analyzer, perfect for routine operation. Sartorius MA35 is a long-lasting, rugged built, impervious to vibration and dirt, reliable even in a harsh environment. Simple use, quick measurement results with heating elements generating 360 watts of power. Temp. settings 40-160 deg C. Measures display: % of moisture, % dry mass, % ATRO, g residue conformity to GLP, data interference RS232C-S, 7 data-bit ASCII multi language selection. Power consumption max. 400VA. Power 115VAC case dimensions 224"W x 366"D x 191"H mm.

EK-L Precision Bench Scale

Ideal for use when large capacity and high resolution are required at the same time. The EK-15KL has 0.1 g readability across its full 15 kg capacity. The EK-30KL has a smart range function. This is especially useful when the gross weight exceeds 3 kg yet 0.1 g readability is needed to measure net weight when using heavy tare containers. A single press of the re-zero key restores the 0.1 g precision range up to 3 kg.

Part Number	Capacity	Weight	SKU	List
EK-15KL	15,000g x 0.01g	12 lb	5539	\$ 980.00

EX Explorer Industrial Balance

Die cast metal base, stainless steel pan and thick metal housing. Explorer High Capacity is built to withstand daily wear and tear. 5.7" color VGA touch screen optimizes viewing and menu navigation. Two sensors on display offer hands free operation. The display can be separated from the base up to 1.5 meters in order to fit operational needs in almost any workspace. Weighing units: g, kg, ct, gn, lb, oz, ozt, N, dwt, hkt, sgt, twt, mom, tical, msg, tola, Custom Unit 1, Custom Unit 2, Custom Unit 3. Weighing applications: Weighing, Percent Weighing, Parts Counting, Check Weighing, Dynamic/Animal Weighing, Filling, Totalization, Formulation, Differential Determination, Peak Hold, Ingredient Costing, SQC. A 9 meter cable is also available when additional flexibility is needed. 2D Protection prevents shock and damage associated with movement and forces applied to the balance. Adjustable rolling feet provide assistance in easily moving the balance. IP54 protection guards balance and weighing cell from damage by dry particles, humidity and accidental spills/splashes (High Capacity models only). Rechargeable battery option provides 10 hours of operation away from a power source. Standard RS232, USB. 100-240 VAC. 17.4"W x 14.8"D x 4.72"H

BM-252
Analytical Balance

BM Series Analytical Balance

Built in Direct Current (DC) fanless ionizer. Clear, white backlit LCD. Interlockable slide doors. Large weighing chamber for improved usability. Built in environmental sensors. Weighing applications for: g, mg, oz, ozt, ct, mom, dwt, GN, tael, tola, PC (counting mode), percent mode. Density determination function. Data memory function can store up to 200 sets of weighing data. GLP/GMP/GCP/ISO compliant output. Motor driven internal calibration mass. Automatic response adjustment. RS-232C and Quick USB can be connected simultaneously to a balance. An external key plug for the optional foot switch is also provided. Overall dimensions 10"W x 18.3"D x 12.8"H.

A&D WEIGHING DIVISION

AD-1683 Static Eliminator

Compact, lightweight and does not require high voltage wiring which makes it easy to handle. DC type, this static eliminator has a remarkable ability for generating ions and can be used for the elimination of static charges from highly electrified weigh samples. Achieves static elimination with a high degree of efficiency regardless of the polarity or the potential of the charged object. A current limiting circuit is incorporated in the ion generating electrode to reduce the possibility of electric shock. Suited for static elimination in narrow and remote places because of its lengthy ion irradiation distance. The AD-1683 is a great compliment to our GH Semi micro balances. 240 VAC, 50/60 Hz.

Part Number	Weight	SKU	List
AD-1683	4 lb	1248	\$ 1,405.00

EX Explorer Semi Micro Balance

Sophisticated professional weighing. Autocal uses 2 internal weights for linear calibration. Color touchscreen display. Touchless Auto doors on AD models. Ionizer to eliminate static electricity. Includes a built in weigh below hook. Weighing functions for: Standard weighing, counting, percent weighing, checkweighing, Dynamic weighing, filling, totalization, formulation, differential weighing, peak hold, density determination, pipette adjustment. Keys for: Touchscreen. Units are g, mg, kg, ct, oz, ozt, lb, dwt, N, mom, tical, msg, tola, baht, tael(3), ozt and custom unit(3). 15.5"L x 9.1"W x 13.8"H. 120 VAC.

Secura Analytical Balance

Easy, reliable weighing in regulated areas. The new operating concept of Secura® will noticeably ease your daily workload during weighing and, its APC function – Advanced Pharma Compliance – will relieve you from tedious and time-consuming documentation and monitoring tasks. Touch screen with Sartorius graphical user interface optimized for users in pharmaceutical laboratories always correctly leveled with Sartorius LevelControl. Special lab applications such as Mixing, Components, Statistics and Conversion; plus standard lab applications such as Weighing, Density, Percentage, Checkweighing, Peak Hold, Counting and Unstable Conditions. Regulatory Compliance with expert support. Intelligent, optoelectronic level sensor with alarm function and interactive user guidance for reliable and safe leveling.

Quintix Analytical Balance

Sartorius teamed up with lab users to develop the user interface of the new Quintix. Lab users number one priority was to ensure easy, intuitive operation without having to read the manual first. Chemically resistant finish of the housing for the easiest cleaning ever. Quintix comes standard with convenient, built in applications for: Mixing, Components, Statistics, Checkweighing, Density, Weighing, Conversion, Peak Hold, Unstable Conditions, Percentages, Counting. Analytical draft shield chamber with doors that glide open smoothly for fatigue free weighing. All panels can be individually cleaned or exchanged. IsoCAL, fully automatic, temperature and time controlled internal calibration and adjustment. Mini USB port.

1119-DO
Solution Balance

OHAUS®

Heavy Duty Solution Balance

Rugged and durable with magnetic dampening to provide quick, trouble free operation. Strongly built to resist corrosion and shrug off harsh environments it reads with a feather touch down to 1 g over the whole weighing range of 20 kg. It has a large, unobstructed **stainless steel** platform and a lockable tare for containers up to 2270 g. Covered self aligning bearings. Readings up to 1100 g are taken from two sliding weight beams and a set of slotted weights, which are stored in the base, extend the capacity to 20 kg. 5 year warranty.

Part Number	Capacity	Pan	Weight	SKU	List
1119-DO	20 kg x 1 g	11" dia	44 lb	1395	\$ 2,670.00

2400-11
Field Test Scale

OHAUS®

Field Test Scale

The heavy duty Multi purpose field scale is for use in laboratory, production facilities or field testing locations. The beam reads 1 lb by 0.01 lb divisions or 500 g by 5 g divisions. The numbers and graduations are in black on a white background for maximum legibility. The scale has a sliding poise designed to eliminate reading errors. A set of slotted weights is supplied with the scale and they store in the cast metal base. For ease in moving the scale, a carrying handle is an integral part of the base. 5 year warranty. 22-1/4" x 9-3/4" x 10-1/8"H.

Part Number	Capacity	Pan	Weight	SKU	List

1550-SD
Harvard Trip Balance

OHAUS®

Harvard Trip Balance

Beam and dial models available. Easy, reliable operation. Two pan balances of this type are commonly used for comparative weighing - to determine the difference in mass between two objects rather than the absolute value. The built in sliding masses (up to 10 or 210g) are usually suitable for this purpose, but weighings up to 2kg can be achieved by using a suitable set of calibrated masses. Magnetic damping. 0.1g sensitivity. 5 Year warranty

OHAUS®

Dial type spring scales

Dial type spring scales offer a versatile and inexpensive weight determination in classrooms, laboratories, field studies and much more. Measurements in grams, ounces, pounds and Newtons. Demonstration spring scales offer a large faceplate for easy viewing and are ideal for all basic weighing applications. ABS housing with metal face plate, pointer, spring and hook. Large bright colored dial face, easy to read graduations on a frosted aluminum background.

Reloading scale

Equipped with cast metal beams designed with wided spaced deep notches to prevent accidental poise movement. Self aligning agate bearings with steel beam pivots and stainless steel fine poises guarantee sensitivity to 0.1 grain. Removable pan with gold colored scoop with handle and spout. Pan supports cradle the pan so that it doesn't tip off when weighing cases, loaded cartridges, arrows etc. Ounce to grain conversion labels for quick reference. Die cast base with large leveling feet for extra stability and durable stainless steel poises. Mechanical design allows for use on the bench or at the practice range. Battery or AC power are not needed. Balance beams with magnetic dampening system to speed reloading.

Weighing Dishes

These plastic anti-static weighing dishes are produced from a special grade of polystyrene and will resist diluted acids, aqueous solutions, alcohols and bases. They are safe, contaminant-free, biologically inert, economical containers which specifically made for many applications such as weighing, dispersing or storing. They can be used as quick freeze trays for sample material, discard trays, for broken ampules, or mixing trays for small batches. They have a smooth surface providing accurate pour-outs with minimal sample loss. Non-reactive with most substances and suitable for weighing static affected materials. Will withstand temperatures up to 80°C

Hexagonal

Globe Scientific's hexagonal plastic weighing dishes are available in 4 different sizes. The molded hexagonal design provides greater balance protection and safety. They are ideal for handling solids or liquids during weighing. They can be easily bent into pouring spouts to provide pour-outs with minimal sample loss.

Clear Flexible Covers

Inuse covers for use with a variety of popular scales and balances. These covers protect from dripping paint and dyes, dust and dirt or any dripping liquid. They are easily replaceable when they have accumulated an excess of the contaminated product. The covers are made of a semi rigid clear PVC or PETG, yet they are soft enough to allow the easy use of the front panel keys on the scale or balance.

Series 5
Digital Force Gauge

M5 Digital force gauge

Designed for tension and compression force testing. Reversible housing allows the gauge to be handheld or mounted to a test stand. Large, backlit graphics LCD display. 5 selectable units of measure: lbF, ozF, gF, kgF, N, kN, mN (depending on model). Keys are: ENTER, ON, UNITS/DIRECTION, DATA/DELETE, ZERO, MENU/ESCAPE, MODE. Data can be transferred to a PC or other data collector via USB, RS232, Mitutoyo (Digimatic), or analog outputs. High speed 7,000 Hz peak sampling rate. 1,000 point data memory with statistics and outputs. Live load bar with set point markers. Programmable set points, with alarms and outputs. Peak readings and set points always displayed. Averaging mode calculates average readings over time. External trigger mode for switch contact testing or remotely stopping display update. Configurable audio alarms and key tones. Password protection, configurable for individual keys and calibration. Included items: Carrying case with chisel, cone, V-groove, hook, flat, extension rod, universal voltage AC adapter, battery, quick start guide, USB cable, resource CD and NIST traceable certificate of calibration with data.

MARK-10

M2 Economical force gauge

Reversible housing for alternate load cell orientation. A backlit graphic LCD displays the current, peak tension, or peak compression reading. Keys for: Menu, Peak, Zero. Peak tension and compression readings are reliably captured via the gauges' ±0.5% accuracy and 500 Hz sampling rate. Powered by 9V battery or available AC adapter. Series 2 gauges are directly compatible with Mark-10 test stands and grips.

MARK-10

BG Digital force gauge

Reversible aluminum housing for hand held use or stand mounting. Programmable analog and digital filters. Compatible with all Mark 10 test stands and grips. Keys are: POWER, UNITS, ZERO, DATA, MODE, CLEAR. Units: lb, kg(g). 4-1/2 digit 0.3" LCD. 62 readings per second. GCL Gauge Control Language for full control of all functions. Measures tensile and compressive forces. Permanent configuration memory. Automatic peak memory, push button calibration. RS232 Mitutoyo and analog outputs, programmable auto shut off. Battery or AC operation. Includes cushioned carrying case with an AC adapter, user's manual and NIST certificate with a set of accessories: chisel, cone, V groove, hook, flat, extension.

TT03 Torque gauge

Designed for clockwise and counter-clockwise torque testing. Capacities from 10 ozFin to 100 lbFin. Dedicated torque sensor with Jacobs chuck is used to grip a sample, bit or fixture. Hand held or mounted to a test stand. USB output gives continuous or individual readings to a PC. Set point indicators for High, Low, In-range. Analog load bar gives visual indication of applied load.

WT3 Wire crimp pull tester

Wire crimp pull testing. A manual ergonomic lever applies force or a motorized unit will automatically apply load to a selected load or load until the sample breaks. Adjustable wire terminal fixture fits wire sizes up to AWG 3 or 0.25". The motorized tester starts automatically when sample is loaded and returns to home when sample breaks. USB, RS232, Mitutoyo and analog outputs. Save and recall up to 500 test profiles. Pull to a specified load or maintain load for a specified period of time as per UL486A/B.

MARK-10

MTT01 Cap torque tester

The CT captures peak torque in both clockwise and counterclockwise directions for application and removal measurements. Tester features a solid aluminum housing and rugged construction for many years of service in laboratory or production environments. Adjustable posts effectively grip a broad range of container shapes and sizes, while a set of optional jaws is available as an alternative gripping method. Accepts samples up to 7.5" dia. Selectable units of measurement are lbin, kgFmm and Ncm. Movable container gripping posts. Battery or AC operation. Includes set of four posts, AC adapter and 9V non rechargeable battery, 30 hours of continuous operation. Users manual and NIST-traceable certificate of calibration.

MTT02 Digital torque tester

Simple, yet accurate solution for testing torque screwdrivers, wrenches and other tools. Solid aluminum housing make it rugged enough for many years of service in production or laboratory use. Universal receptacle with square drive and grooves accepts commpn bits and attachments. Applications exist in virtually every industry. Captures peak torque in both clockwise and counterclockwise directions. Selectable units of measure are: lbFin, kgFmm, Ncm. Push button calibration. RS-232 and Mitutoyo (Digimatic). WinWedge software allows the torque tester to send data to a PC for furthur analysis in Windows applications such as Excel. AC or non-rechargeable 9V battery with Intelligent Power Management System (IPM). IPM warns user via "LO BAT" indicator and then will power off the gauge. 30 hours of continuous use.

MR04 Miniature Force Sensor

Extremely compact force measurement sensor for tensile and compressive loads in a limited space. This sensor features outstanding mechanical overload protection of up to 1,000% of full scale for most applications and threaded holes on two sides for the mounting of attachments or implements. Member of the BGi family interchangeable sensors. Personality module holds all calibration and configuration data. Measures tensile and compressive forces. Mechanical overload protection of up to 200% for SJR50 and SJR100 when used in tension only. Accuracy $\pm 0.2\%$ of full scale ± 1 digit + BGI. NIST traceable certificates of calibration included.

Tarjetas de Crédito

El despacho se hará el mismo día

Solo aceptamos VISA y MASTERCARD

Nota: Proveer siempre el número de cuenta y la Fecha de Vencimiento.

Estimado cliente tener en cuenta que: Mastercard y Visa cobran el 3.15% mas \$1.15 por transacción. Estos costos serán agregados a su factura.

Con Cheque

Cheque de banco de USA o Money Order.

Despachamos cuando el cheque arribe a nuestras oficinas. Por ejemplo si lo envián por servicio courier como DHL o FedEx, el cheque llegaría en 2 ó 3 días a Totalcomp.

Cheque a nombre de: Totalcomp Inc

Enviarlo a: Totalcomp Inc
 13-01 Pollitt Dr Ext
 Fair Lawn NJ 07410
 USA

Cheque por fax/email

Agilizan sus ordenes de compras

En Totalcomp ahora tenemos el nuevo sistema de cheques por fax que permitira el despacho de los productos el mismo día. Tambien agiliza los pagos de facturas vencidas, y ahorra gastos de transferencia y de courier cuando envian un cheque a nuestras oficinas.

¿Como trabaja?

Ustedes consiguen un cheque de un banco local con nexos bancarios Norteamericanos en Dólares Americanos y lo envían vía fax a Totalcomp, con una autorización firmada por el dueño de la cuenta que diga lo siguiente:

Este cheque autoriza cargar a nuestra cuenta la suma de \$ _____

Una vez que lo tengamos tomaremos el número de cuenta del cheque, el número de tránsito y el número MICR que identifica el banco original. Luego imprimimos un cheque con esos datos y lo depositamos normalmente. Esta transaccion es completamente legal y es permitida en los Estados Unidos.

Una vez que tengamos el cheque por fax podremos despachar el mismo día. Ustedes se ahorran los gastos de DHL, FEDEX, tranferencia, o cargos del 2.8% cuando pagan con Visa o MasterCard.

Terms

Terms

Your choice of payment.

1. Check or money order with order.
2. Net 30 days for approved credit customers. If you desire a Totalcomp charge account, simply request a credit application with your next order (or at any time) and we will ship your order when your credit is approved.
3. C.O.D. will be delivered by UPS or Federal Express. They will collect total charges which will include merchandise, freight and handling.

Prices are FOB Fair Lawn, New Jersey or FOB Factory and are subject to change without notice. Orders will be filled with prices in effect at the date of shipment. Minimum order is \$20.00 excluding shipping charges.

Stock

Your components will be shipped within 24 hours from when we receive your order. We normally carry an ample supply of every item on our stock shelf. It is very infrequent that our supply is depleted to zero due to unusual requests from our other customers.

Shipping

- UPSYour order will be shipped UPS whenever possible, unless you request a different method of shipment. Maximum 150 lbs per carton.
- UPS 2nd day airAir freight via UPS. It is a guaranteed 2-day delivery not including Saturday or Sunday.
- UPS 3 day airGround service via UPS. It is guaranteed 3 day delivery not including Saturday and Sunday.
- UPS Next day airAir freight via UPS. It is a guaranteed 1-day delivery not including Sunday.
- Express mailAir freight via U S Postal Service. Guaranteed next day delivery not including Sunday.
- Air FreightAir freight via Federal Express, DHL and other independent air cargo service. Normally next day service. Extra cost for Saturday delivery. No Sunday deliveries.
- TruckWhen shipping load cells and other parts by truck specify shipping class as SCALES NOI CLASS 85.

Warranty

Your Customer Warranty is the standard manufacturer's warranty, which is normally 1 year from date of shipment.

No prior return authorization is required.

Return to us the defective items. Enclose a note with the model number, serial number, invoice number and date of purchase and a brief description of defect.

Defective part will be forwarded to the manufacturer for evaluation. Customer will be advised of the status.

No credit will be issued unless offered by the manufacturer.

Return Policy

All merchandise must be authorized prior to return. No return will be accepted without a **Return Authorization Number**, except for warranties.

If the wrong part was ordered:

1. A 20% restocking charge plus shipping charges will apply.
2. The merchandise being returned must be returned within 2 weeks of original shipping date.
3. The Merchandise being returned must be unused and received in new condition. If merchandise appears to have been used or received in poor or damaged condition, a refurbishing charge will be applied before credit is given.

If the wrong part was shipped:

1. The correct merchandise will be shipped at once.
2. Full credit will be issued upon return of incorrect merchandise.

Damaged in Shipment

Merchandise that has been damaged in shipment must be reported to the freight carrier immediately.

Do not return the merchandise until after the freight carrier has inspected the damage. Keep all the original packaging material for the inspection. The freight carrier will not honor a claim for damage if the merchandise is not as you received it.

After the freight carrier has inspected the damage and has given us approval, we will give you a **Return Authorization Number**.
